

You recently received an e-mail from the USTA regarding the 2023 Economic Impact Study being conducted by the American Horse Council.

Please take a few minutes to complete the survey found in a link on the USTA website or at [horsecouncil.org](http://horsecouncil.org). The data will be used to create awareness of the importance of the equine industry, and the promotion of our business to legislators and policy makers.

There will be cumulative and state specific standardbred industry breakouts, so it is critical that we respond. It only takes about 20 minutes to complete the survey; and if you don't have definite answers, best estimates are acceptable.

**PLEASE ACT NOW! MAKE YOUR HORSES COUNT!!!**
